Student Workshops

These workshops can also be tailored to the needs of the school – the most customised are those where a professional development session has been undertaken with staff and then a follow up session on the same topic with the students (eg: determining a whole school approach to providing feedback and then a session with the students on how to read and use feedback in this new model).

VCE English sessions for students include text revision, exam revision, writing workshops and how to answer the criteria.

Fees vary depending on the length of the session and the number of students (particularly relevant for writing workshops)

Between: \$500-\$800
